## Education

- Secondary School** March 2016 - April 2017  
*Seth Anandram Jaipuria School* Ghaziabad, India
- Higher Secondary School** March 2017 - April 2019  
*Seth Anandram Jaipuria School* Ghaziabad, India
- Bachelor of Technology** August 2019 - July 2023  
*ABES Engineering College - Electronics and Communication, Pre Final Year* Ghaziabad, India

## Skills Summary

- Languages:** C/C++, Python, PHP, JavaScript
- Web Technologies:** HTML, CSS/Sass, Bootstrap, ReactJs
- Tools:** Github, Xampp, MySQL, Adobe Photoshop, After Effects
- Core Fundamentals:** OOPS, Computer Networks, Operating System
- Platforms:** Linux, Web, Windows
- Soft Skills:** Leadership, Event Management, Time Management

## INTERNSHIP

- Bending Tech** Online  
**Web Developer (Full-time)** Oct 2021 - Nov 2021
  - Replicating Designs:** From the given **Figma UI**, I created **frontend** pages with Javascript, CSS & Bootstrap.
  - Managing Backend:** I wrote **SQL Queries**, and made dynamic content for websites using **PHP**, **MySQL**. Users were able to perform **CRUD** operations.
  - Working with Clients:** I attended the final submission meetings and used to explain the database structure and working of the backend services to the **clients**.
  - Learnings:** **API** management, working with **Postman**, Hosting services like **000webhost**, Team Work, **Pressure** Management, Handling **Deadlines**

## Projects

- Coin Dunia - Cryptocurrency stats platform (Working with API):** Coin Dunia is a **ReactJs** website that uses the CoinGecko API. Users can search for a coin listed in the table. It shows the market prices, profit/loss etc. You are redirected to the particular coin page after clicking. It emphasizes on the uses of **Hooks**, **Props**, **Routing**, **APIs** and **material-ui**.
- Salaah(Ongoing Project):** It is a **patented group project** which is being made for the **college** mentor community. We're working to create a professional alumni network using **MERN** stack. I'm working on **ReactJS** with the frontend team that deals with **Props**, **Hooks**, **Routing**, **Chakra-UI**. The project consists of social media like profile, chats and feed interface. Some libraries and technologies being used are **Redux**, **Socket.io**, Multer, Formik

## Certification and Training

- 30 Days of Web Development Program:** It was a **bootcamp** organized by **Skillenza**, that encouraged hands on training of web technologies. It helped me learn new tools and technologies like **Github**, **HTML/CSS**, **Javascript**, **Figma**.
- Programming with Python:** It was a 3 month long training held by **ABESEC**, in which I got to learn the basic concepts of Python, **OOPS**, and **Problem Solving**. (Dec 2020 - Feb 2021)

## Achievements

- Selected as a contributor for **GirlScript Winter of Contribution 2021**. I was certified for being an **active contributor** in the technologies like HTML/CSS and PHP. (September 2021 - November 2021)
- I published a **technical article** for **GeeksForGeeks**, Technical Scripter event which secured **37th rank** in India. The article explained the debugging process in Turbo C++. (March 2021)

## Extra Curricular

- Technical Lead, Salaah The Mentor Community:** I'm leading the technical team of 8 members, in which we're working to create a website for building an Alumni network for the college. We also conduct online and offline technical & soft-skills podcasts impacting over 1000 students of college. (Nov 2021 - Present)
- Event Organizer of Mega Drive ABESEC 2022:** Organized online mock interviews for the placement preparation of 400 Pre Final year students aiming for Software Companies. (Apr 2022)
