EXPERIENCE

SDE INTERN — Mar 2022 - Mar 2023
SALAAH

- **Project**: Built a platform using **NextJS/TypeScript** which enhanced website's performance by **40 percent**.
- **Platform**: As part of a team, developed and debugged a **MERN-based Mini LinkedIn platform**, optimizing the code for improved performance..
- **Analytics**: Utilized **reporting and analytics** skills to enhance website ranking and technical SEO through Clarity and Google Analytics.

DEVELOPER — Oct 2021 - Nov 2021
ASIANA TIMES

- Developed **custom WordPress themes** and templates using HTML, CSS, and PHP, adhering to **best practices** and coding standards.
- Collaborated with content creators and editors to provide **technical support** and **training** on WordPress usage and content management.

PROJECTS

SALAAH — Education Platform

- Built a **ReactJS** platform for a community. Generated an organic audience of more than **5000 active users**.
- Recruited and **guided 7 students** to manage the platform and help them learn various tech stacks.
- Accelerated work by **70 percent** utilising **Sanity and Cloudinary** for content management and picture optimisations.

STEP PORTAL — Full Stack Converse Platform

- Created a realtime **MERN** stack portal in which mentors can give marks to students on the predefined parameters with **MUI** and **SocketIO**.
- Implemented features such as **JWT authentication**, encryption, CRUD actions, etc., while effectively managing data for over **2000 users** using **MongoDB**.

ACHIEVEMENTS

- **MERN Instructor — ABESEC, Oct 2022 - Dec 2022:** Awarded with best MERN Trainer Award alongside two other colleagues to teach 120 pre-final year students by conducting more than 30 sessions.
