CERTIFICATIONS

WEB DEVELOPMENT CAMP
It was a 30 days bootcamp organized
by Skillenza, that encouraged hands on
training of web technologies. It helped
me learn new tools and technologies like
Github, HTML/CSS, Javascript, Figma.

PYTHON, ABESEC
It was a 3 month long training held by
ABESEC, in which I got to learn the basic
concepts of Python, Problem Solving
and OOPS.

INTERNSHIP

BENDING TECH | Web Development Intern
Sep 2021 - Nov 2021
- **Replicating Designs**: Responsible for replicating the **frontend pages** with Javascript, CSS & Bootstrap from the given Figma UI.
- **Managing Backend**: Added the **CRUD** functionality by writing **PHP** code and **SQL** Queries.
- **Working with Clients**: Attended the final submission meetings to explain the **database structure** and working of the backend services to the clients.
- **Learnings**: **API management**, working with **Postman**, Hosting services like 000webhost, Team Work, **Pressure** Management, Handling **Deadlines.**

PROJECTS

CRYPTOCURRENCY STATS PLATFORM | Working with API
Coin Dunia is a **React Js** website that uses the CoinGecko API. Users can search for a coin listed in the table. It shows the maket prices, profit/loss etc. You are redirected to the particular coin page after clicking. It emphasizes on the uses of **Hooks, Props, Routing, APIs and Material-UI**.

SALAAH (ONGOING PROJECT) | Frontend Lead
Mar 2022 – Present | ABESEC, Gzb
It is a **patented group project** which is being made for the college mentor community. We're working to create a professional alumni network using **MERN** stack. I'm working on ReactJS with the frotend team that deals with **Props, Hooks, Routing, Chakra-UI**. The project consists of social media like profile, chats and feed interface. Some libraries and technologies being used are **Redux, Socket.io, Multer, Formik.**

ACHIEVEMENTS

Open Source
Sep 2021 - Nov 2021
Selected as a contributor for GirlScript Winter of Contribution 2021. I was certified for being an active contributor in the technologies like HTML/CSS and PHP

Geeks For Geeks
Mar 2021
I published a technical article for GeeksForGeeks, Technical Scripter event which secured 37th rank in India. The article explained the debugging process in Turbo C++

EXTRA CURRICULAR

Technical Lead, Salaah The Mentor Community
Nov 2021 – Present
I'm leading the technical team of 8 members, in which we're working to create a website for building an Alumni network for the college. We also conduct online and offline technical & soft-skills podcasts impacting over 1000 students of college.

Event Organizer of Mega Drive ABESEC 2022
Apr 2022
Organized online mock interviews for the placement preparation of 400 Pre Final year students aiming for Software Companies.
